

**GDC - P** Portable Capacitor Discharge Welder**DESCRIPTION :**

- Maximum power 100 Joules / 48V
- Setting from 0 to 100 Joules
- Charging process indicated by led
- Amphenol plug for the triggering of the hand tools
- Rate of production: 4 welds/minute in continue or 10 welds/minute followed by 5 minutes without using the machine
- With a switch : 230V 50 Hz / 110V 60 Hz
- Dimensions : L 30cm H 16cm W 24cm
- Weight : 6 kg

**GDC P****Linked products****SHUNTER**  
Parallel welding handle**CS 1 - CS 5**  
Welding pen 1 and 5 DaN**Dedicated applications**

- Accumulator Packs
