

GDC 1000 E / TD Capacitor Discharge Generators
DESCRIPTION :

- Stabilized power supply
- Power indicated on galvanometer in Watt/sec
- Forced air cooling
- Two amphenol plugs contact for head or tooling weld signal
- 2 units : one electronic unit (GDC 1000 E) and one discharge transformer (GDC 1000 TD)

GDC 1000 E
FEATURES:

MODEL	GDC 1000 E	GDC 1000 TD
Maximum power W/Se-joules	1000	
1st scale	0-1000	
Galvanometer indication	X	
Capacitor batteries	11750 μ F	
Maximum charge voltage	430V	
Short time m,s	7,5	
A	15000	
Medium time m,s	N/A	
A	N/A	
Long time m,s	10,5	
A	12000	
Power supply voltage - 50 Hz	220	
Connecting intensity	20	
Dimensions	H 330 x L 425 x P 440	H 340 x L 320 x P 500
Weight M,G	52	80
Outlet cable section in mm ²		70
Quick disconnect plug		On request

GDC 1000 TD
